Hoomano
TOOLS

Hoomano **Studio**

A **tool** created by Hoomano to **optimize** the use of your **robot**

Hoomano™

www.hoomano.com

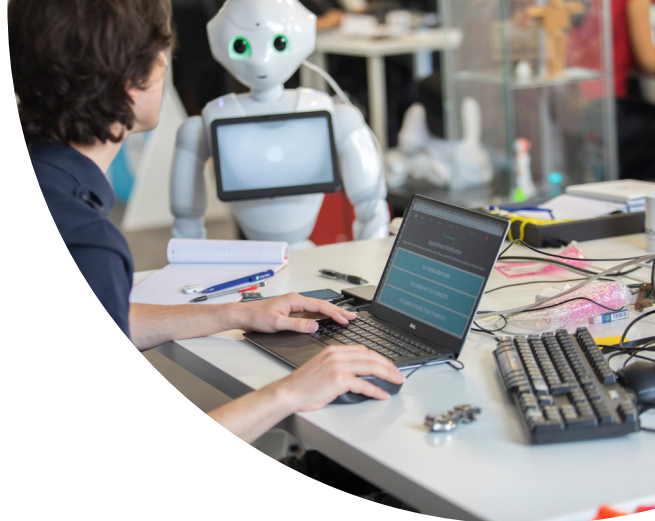

SoftBank
pepper partners
EUROPE

Your online platform

To set up your robot autonomously

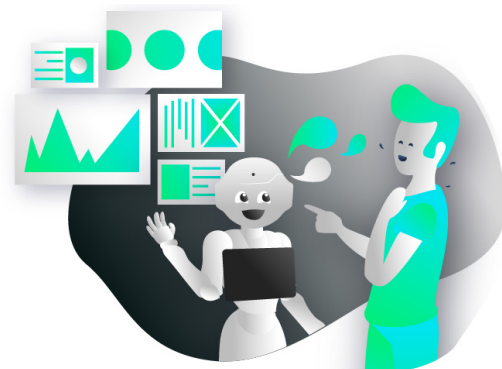

Program your robot's functions according to your needs without any technical skill required.

Easily set up your Pepper robot from a web page.

What for ?

- **Adapt** your robot for everyday needs or for events (exhibitions, open house days, welcoming of foreign customers...)
- **Add fonctionnalités** to your existing app (photomaton, selfie, quizz, jeux, module de rendez-vous...)
- **Build an app from scratch**, without needing Hoomano's help

How does it work ?

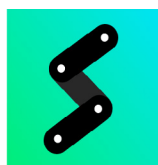

- Possibility to use pre-defined templates or to create your own app architecture
- **Customize your design** with your logo
- Integrate your content **easily**
- Add content in a **second language**

Benefits

- **Optimize** your device utilization
- Features evolution **at least cost**
- **Any profile in your team** can handle the robot setup
- You stay autonomous in the setup of your robot
